

SHAMSIYA.KP

DATA SCIENTIST TRAINER

Malappuram,Kerala-676552 | +91-9562206901 |shamsiyakp030@gmail.com|

[LinkedIn](#) | [GitHub](#) |

PROFESSIONAL SUMMARY:

AI & Data Science Trainee with technical proficiency in Python (Pandas, NumPy, Matplotlib), SQL, and Power BI, specializing in data cleaning, exploratory data analysis (EDA), and predictive modeling. Experienced in building end-to-end machine learning solutions and interactive Streamlit applications, with a solid foundation in statistical analysis, ETL processes, and KPI reporting. Skilled at translating complex datasets into clear, data-driven insights that support measurable business decisions.

SKILLS:

- Programming: Python (Pandas, NumPy, Matplotlib)
- Database: SQL (Joins, Subqueries, GROUP BY, Aggregate Functions)
- Data Visualization: Power BI (DAX, Dashboards, KPIs, Bookmarks); MS Excel (Pivot Tables, VLOOKUP, Charts)
- Data Analysis: Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA)
- Tools: Jupyter Notebook, GitHub, MS Office
- Concepts: Statistics, Data Modeling, ETL Basics, KPI Reporting
- Professional: Analytical Thinking, Problem-Solving, Attention to Detail, Communication, Time Management,
- Teamwork & Collaboration, Adaptability, Presentation Skills

EDUCATION:

diploma in AI&Data Science Jul 2025 - Aug 2026
IQJITA innovative LLP

Bachelor of Science in Physics Sep 2022 - Apr 2025
University Of Calicut

PROJECTS:

City-wise Wellness Centre Analysis | Python,Power BI

- Cleaned and preprocessed healthcare data by handling missing values and correcting coordinate formats
- Performed exploratory data analysis (EDA) to evaluate city-wise distribution of wellness centres and doctor availability
- Identified key healthcare gaps such as uneven resource allocation and centres with zero doctors
- Created visualizations and an interactive geospatial map to present insights effectively.

Crypto Marketing |Machine Learning,Python,Streamlit UI

- Developed a Cryptocurrency Market Prediction model using Machine Learning algorithms.
- Performed data preprocessing, feature engineering, and trend analysis on crypto market data.
- Built a Streamlit application for real-time cryptocurrency price prediction and visualization.

Netflix AI Recommendation System | Deep Learning Project,python,Streamlit UI

- Developed an AI-powered Netflix Recommendation System using Python, Streamlit, Pandas, NumPy, and Scikit-learn, delivering personalized movie and TV show recommendations based on user preferences.
- Implemented K-Means Clustering, feature scaling, and a custom recommendation algorithm to analyze content attributes such as genre, rating, popularity, release year, and language for intelligent content suggestions.
- Designed a professional Netflix-inspired interactive dashboard with dynamic filters, real-time recommendations, and a responsive user interface to enhance user experience and recommendation accuracy

CERTIFICATION:

- CTDS-Diploma in AI & Data Science
- Bsc. in Physics from University of Calicut.
- Excel Using AI Workshop,Introduction to MS Excel ,Machine Learning Data Analysis in Simplilearn.
- AI for All Program in Digital india
- Python And SQL For Data Science in Scaler Topics

ADDITIONAL INFORATION:

- Languages: English, Malayalam,Hindi,Arabic
- Awards/Activities: Monthly Top Performer (Oct 2025)(May 2026),Workshop Conducte Excel Workshop Facilitator(2025,26) – Conducted an Excel workshop for HR and Office Administration (OA) students
